Benefit Enrollment- Your employer provides you with a selection of supplemental benefits that you can choose from, and pay for, on payroll deduction.

Each of these benefits will be outlined in detail in the InRoll system with Plan Specific information on each benefit page.

Simply follow the instructions on each page to enroll in or decline coverage. Once you make your choice, and submit your election, you will move to the next benefit page.

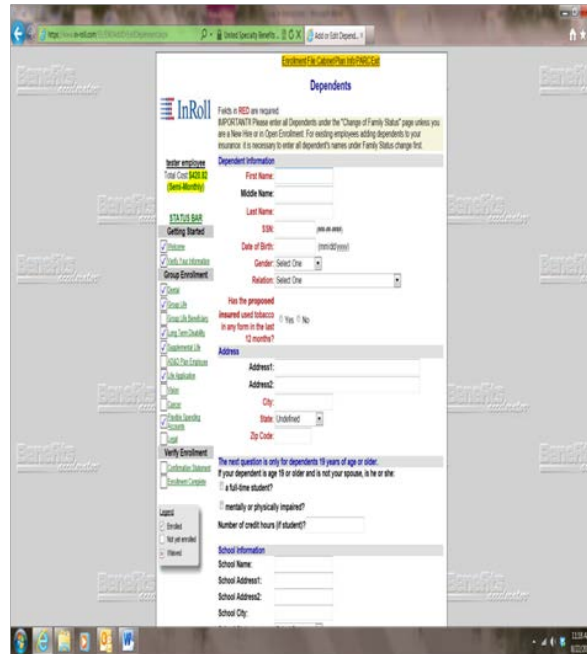

Some benefits will require responses on multiple pages. This will typically be for verification of your benefit election, identification of insured dependents, or completion of any required applications.

Dependent Enrollment- Many of your benefit offerings will include options to enroll your spouse and children for coverage. If you do not see an option to enroll your spouse or child, you have not entered their information on the **Verify Information** page in InRoll. You will need to return to the **Verify Information** page and enter the information for each dependent.

Do this by clicking on the **Add Dependent** link and entering the **RED** items on the **Dependents** page. Once entered, click the **Submit Information** button at the bottom of the page. Repeat this process for each dependent. Once all dependents are entered, return to the enrollment screen you were on by clicking on the green plan name link on the left side of the page under the Status Bar.
